Situation Report

Hurricane Rita & Hurricane Katrina Support

11am, September 22, 2005

Hurricane Rita

Hurricane Rita continues its trek across the Gulf of Mexico. At 10am, the National Hurricane Center reported the following information on the storm:

- Rita was located about 460 miles southeast of Galveston, Texas and 445 miles southeast of Port Arthur, Texas.
- Sustained winds are estimated in excess of 165 mph, making the storm a category-five hurricane on the Saffir-Simpson scale.
- Rita continues to move to the west- northwest at 9 mph. The projected path of the storm through Friday is west through the Gulf of Mexico, with landfall expected on the Texas coast late Friday or early Saturday. National Weather Service maps indicate a landfall in the Galveston area. There remains remote chance that the storm may turn to the north and strike along the west Louisiana Coast.

SEMA continues to monitor weather service reports, and stands ready to provide assistance through the Emergency Management Assistance Compact (EMAC), if needed.

Hurricane Katrina

Operations to support the displaced persons from Hurricane Katrina continue to wind down. All State Agencies have returned to normal operations and SEMA continues to monitor the situation with normal staffing patterns and, if necessary, with on-call staff.

- The Missouri Donations Hotline (800-841-8891) continues operating out of St Louis. The hotline was established for anyone wishing to volunteer or donate to Katrina victims. AmeriCorps volunteers are staffing the hotline from 8am-7pm, seven days a week. There were three calls yesterday – one volunteer and two for donations.

EMAC Support

SEMA is starting to receive EMAC requests for military equipment in response to Hurricane Rita. Those requests have been forwarded to the Missouri National Guard. EMAC requests for Hurricane Katrina are now being filled primarily by States closer to the Katrina affected area. Missouri EMAC support for Katrina includes the following:

- State of Mississippi has requested assistance with floodplain management activities. SEMA will dispatch four personnel in October to assist.
- Members from several fire departments in Region C (St Louis area) continue their work in Gulfport, MS with 26 personnel and 12 water tankers. They are assisting the local fire department with firefighting activities.
- Missouri will be sending a SEMA EMAC Team member to Baton Rouge, Louisiana to assist in recovery for Hurricane Katrina.

Severe Storms

There were no severe storms in Missouri over the last 24 hours.

Points of Contact:

SEMA can be contacted during normal hours (730am-430pm) at 573-526-9100. Emergency calls after hours can be made to the duty officer at 573-751-2748,
